We are seeking a software developer to become an integral part of our team! When you become an ABS employee, the opportunities to showcase your skills and knowledge are endless. You will be responsible for analyzing requirements, procedures, and problems to design, automate or improve existing software solutions.

This job is in Macon, GA, and requires the candidate to be onsite a minimum of 3 days. Ability to work in the office 5 days/week is a plus.

A successful candidate should possess the following:
- Adaptability to handle changes in schedule, delays, or unexpected events.
- Demonstrated critical thinking, analytical, and decision-making skills.
- Ability to present complex information in a clear and concise manner.
- Ability to prioritize work tasks.
- Reacts well under pressure.
- Meets commitments.

Responsibilities include:
- Designs or writes program specifications based on consultations.
- Creates test scripts and runs tests to find errors and confirm program meets specifications.
- Designs and codes layouts for onscreen user interface (UI), printed outputs, and interfaces with other systems.
- Coordinates with other programmers about program revisions.
- Modifies and maintains software programs written by others.

Qualifications:
- 5+ years in object-oriented .Net design and development (C#, WinForms, DevOps, Git, web services, WebAPI, REST, XML, MS SQL Server, .Net Core).
- Experience with MicroServices, Entity Framework and LINQ-To-SQL.
- Good understanding of best practices, coding methods, and data security.
