

We are seeking a project manager to become an integral part of our team! When you become an ABS employee, the opportunities to showcase your skills and knowledge are endless. You will be responsible for the management and delivery of software to companies in the consumer finance industry.

A successful candidate should possess the following:

- Adaptability to handle changes in schedule, delays, or unexpected events. Reacts well under pressure.
- Demonstrated critical thinking, analytical, and decision-making skills. Ability to define problems, collect data, establish facts, and draw valid conclusions.
- Ability to interpret an extensive variety of technical instructions in mathematical or diagram form.
- Ability to communicate effectively, both written and oral, through departmental reports, correspondence, and before groups of customers or employees of an organization.
- Meets commitments.

Responsibilities:

- Consults with the customer's IT vendor, staff, or designated person to gather information and understanding concerning policy, practice, or procedure.
- Reviews project proposal or plan to determine time frame, funding limitations, procedures for accomplishing project, staffing requirements, and allotment of available resources to various phases of a project.
- Confers with project staff to outline work plans and assign duties and responsibilities for each phase of a project.
- Directs and coordinates activities of project personnel to ensure a project progresses on schedule and within the prescribed budget.
- Maintains knowledge of current consumer finance industry trends and regulations.
- Analyze, evaluate, and present information concerning the design and development of new software applications, products, and services

Qualifications:

- Bachelor's degree (B. A.) from a four-year college or university; or at least two years of related experience in information technology or other related fields; or an equivalent combination of education and experience.
- Banking, consumer loan, and/or insurance experience are considered a plus.
- Ability to apply mathematical concepts commonly used by the consumer finance industry.
- Knowledge of various software; Accounting, Database; Project Management; Microsoft Office 365 tools.
